

Leave-in-Conjunction with TDY (LICWOT)

1. The request to take leave in conjunction with official TDY needs to be annotated in the member's DTS authorization.
2. The authorization memo then needs to be completed by the member, Passenger Travel technician, and signed by Sq/CC.
 - a. This memo can be retrieved by contacting Passenger Travel or viewing our share point at:
<https://usaf.dps.mil/sites/Aviano/31MSG/31LRS/LGRD/PassengerTravel>
3. Once complete, upload the memo into DTS for AO approval.
4. After approved request TMC assistance.
5. TMC/SATO will then see the leave authorization and will ticket the official travel before conducting a ticket exchange.
 - a. If the cost of the official travel is less than the leave travel, the TMC will issue the official travel ticket first using the member's GTC. The ticket will then be applied/exchanged with the same airline to purchase the leave travel ticket. For the additional expenses above the cost for the official travel, the traveler will be required to pay with a personal credit card.
 - i. The GTC cannot be used to pay for leisure travel.
 - b. If the cost of the official travel is more than the leave travel, the TMC will issue the official travel ticket first using the member's GTC. The ticket will then be applied/exchanged with the same airline to purchase the leave travel ticket. As the cost is cheaper and there are no additional expenses, the traveler will receive a credit on their GTC for the cost difference.
 - i. If the member does not have a GTC and used the CBA, the CBA will be credited for the cost difference.
