

# Mobility Customer PIN Features

Slated for ILS-S v.6.0.35 (April) Release

# Mobility Customer PIN – Digital Signature

- All Mobility Customers (both ILS-S users and non ILS-S users) will need to access ILS-S and Self Register as Mobility Customer.
  - <https://ils-s.cce.af.mil/ilss/>
- Customer PIN must be 6 Numerical Digits.
- Should customer forget their PIN, simply access ILS-S the same way and enter a new PIN.
- ILS-S will have a daily automatic email job to all customers without a PIN, requesting the customer to follow the link in their email to initialize their PIN prior to showing up at IPE.

# Customer PIN Registration – NON ILS-S User

The screenshot shows the ILS-S splash screen for a non-user. At the top left is the ILS-S logo, and at the top right is the URL 'reynolds.steven.jp'. Below the header is a grey bar with the text 'Access Denied'. A red banner below that contains the message 'There is a problem with your account.' The main content area is divided into three sections. The first section, 'User Actions (for ILS-S users)', contains a 'System Administrator Message' box with the text 'Your account has been archived/deactivated. If ILS-S access is still required, please initiate a new user access request.' The second section, 'ILS-S Registration', contains the text 'If you would like to check your status or register for access to ILS-S:' and a blue button labeled 'ILS-S User Access Request'. The third section, 'Mobility Management Actions', is highlighted with a red rectangle and contains a 'Mobility Customer Registration' box. This box contains the text 'If you do not require access to ILS-S and you need to reset you pin or update your Mobility Management customer information, please click the button to update your information.' and a blue button labeled 'Self Register as Mobility Customer'. A red arrow points to this button.

ILS-S

reynolds.steven.jp

Access Denied

There is a problem with your account.

User Actions (for ILS-S users)

System Administrator Message

Your account has been archived/deactivated. If ILS-S access is still required, please initiate a new user access request.

ILS-S Registration

If you would like to check your status or register for access to ILS-S:

ILS-S User Access Request

Mobility Management Actions

Mobility Customer Registration

If you do not require access to ILS-S and you need to reset you pin or update your Mobility Management customer information, please click the button to update your information.

Self Register as Mobility Customer

Mobility Customers that do not have a ILS-S account (the vast majority of customers) will see this splash screen after attempting to access ILS-S and authenticating through the Air Force portal with their CAC and EDIPI. They should then click “Self Register as Mobility Customer”

# Mobility Issue Item Process

- Adding Item(s) to Customer cart has records highlighted in blue. These records have not been issued (or processed a pull) yet.
- Clicking Process Pick List generates the Pick List (and performs BOI checks)

Process Pick List

Deny Requested Item(s)

# Mobility Issue Item Process ctd.

- Items have been pulled (via the Process Pick List), but not yet issued (or delivered) to the customer. Hence the items are highlighted yellow, not the standard gray(s).
- Click Deliver Item(s) to Customer for PIN entry and to issue items to the customer.
- Note: The “Send Ready for Pickup Notice” button is available but will only be helpful for UDM orders.

# Mobility Issue Item Process ctd.

- After clicking the Deliver Items to Customer button, the PIN pop-up box appears.
- Have the customer enter their 6 Digit PIN into the box, then click Deliver Item(s)

The image shows a web application interface with a modal dialog box titled "Deliver Items To Customer". The dialog box contains a text input field labeled "6-Digit PIN" with a red asterisk indicating a required field. Below the input field are two buttons: "Deliver Item(s)" in blue and "Reset" in grey.

# Mobility Issue Item Process ctd.

- After the PIN validation, the items will be issued to the customer.
- There will be a green message box in the top right
- Items will no longer be highlighted and instead be standard table colors of gray
- Items that have been issued post 6.0.35 release will have an audit trail “View” link. This audit trail link will show all items issued as part of the issue transaction, as well as a new MSU – PIN Validation verifying that a customer PIN was entered and validated.

The screenshot displays the Mobility Issue Item Process web application interface. At the top right, a green message box states: "Successfully added 1 items for HADLEY, COREY L".

The interface includes several sections:

- Mask Size:** A dropdown menu with "Select..." and a checkbox for "Eye Glasses". Buttons for "Update Customer Information" and "Reset" are present.
- Air Force Directory Service Personnel information:** A section showing "No Records Found" with a "View Customer Record" button.
- Currently Issued To Customer:** A section with an "Issued Summary" table. The table has columns: Issued Site, Print Hand Receipt, Received Items, and Overdue. A row shows "LANGLEY AFBW" with a "Print Hand Receipt" link. A "Transfer Issued Items Site of Accountability" button is below the table. Links for "CSV" and "Raw CSV" are at the bottom right.
- Items - All Mobility Sites:** A section with a "Set Projected Return Date For All Items" input field and an "Update Projected Return Date For All Items" button. Below this is a table with columns: Issued Site, Stock #, UOM Requested Item, Nomenclature, Shipping List Qty, Issued Qty, Issued Date, DOE, Service Life Date, UID, Contract #, Lot #, State, Projected Return Date, Indefinite Duration, and Audit Trail. A row shows data for "LANGLEY AFBW" with a "View" link. Buttons for "Remove Selected Item(s)", "Add Item(s) to Customer Cart", "Process Pick List", and "Deny Requested Item(s)" are at the bottom. Links for "CSV" and "Raw CSV" are at the bottom right.
